Purpose of Priority Based Budgeting

The traditional approach to budgeting has always been incremental, with last year's budget serving as the basis for the budget of the following year. This has typically been done in concert with a zero-based approach, where accounts for certain line items essentially start with zero and every planned purchase is detailed. Unfortunately, these budgeting methods do not adequately address priorities, and do not directly link to strategic goals or performance measurement. As part of the solution to this dilemma, our organization has partnered with ResourceX toward establishing a framework and providing a "new lens" through which the organization can clearly see where opportunities exist - therefore making more effective use of finite resources and continuing to serve in the most effective, efficient and fiscally responsible manner possible.

The Priority Based Budgeting (PBB) model provides a comprehensive review of the entire organization's operating budget, identifying and ranking services (programs) offered on the basis of the community's priorities. The diagnostic process enables policy makers to link funding decisions to priorities in the strategic plan. The PBB philosophy involves "Results", which are the fundamental reason an organization exists, and what the organization is in business to provide. Result definitions detail and expand on the factors influencing the results our organization aims to achieve - and for which all services/programs would then be gauged by and ranked on.

Process Overview

The methodology involved in implementation of Priority Based Budgeting process can be broken out into five distinct steps:

Step 1 - Determine and Clarify Vision/Results

The first step is to determine the results used in Priority Based Budgeting. These results are based on best practices and align with other initiatives (for example, a Strategic Plan) that have defined an organizations goals. Two sets of results were created to distinguish between *community-oriented* and *governance-oriented* results. These "Result" areas are further supported by Result definitions. At a high level, "Results" are the fundamental reason that an organization exists, and what an organization is in the business to provide.

Step 2 - Identify Programs and Services

Each department then set out to develop a comprehensive list of programs and services offered by that department (what exactly we do). These 'Program Inventories' build a common understanding of what the organization is offering to the community and in support of internal operations and procedures. The inventories include a description of the program including services provided, and identify the program as either community or governance-centered. Community programs are those providing direct service to residents and businesses, while governance programs are those providing support services within the city to other departments

Step 3 - Allocate Costs/Resources to Programs

After program identification, departments then provided comprehensive and detailed cost information for each individual program. Through this process, departments estimated the level of staff time and other department budget expenditures/costs dedicated to each program, as well as identifying any revenues generated from these services. These were each labeled as personnel or non-personnel costs.

Step 4 - Score Programs Based on Results

In this step, departments then evaluated each program on how much every program contributes to achieving each result. Departments also scored other attributes of each program, such as the level of mandate to provide the program, the amount of cost recovery of the program, change in demand for the program, and the portion of the community served by the program. Once departments scored their programs based on these criteria/results, multi-departmental teams conducted follow-up review, validation, and cross-checking of these scores through a formalized objective peer review authentication process.

Step 5 -Resource Alignment Diagnostic Tool

In the final step, program costs and scores are combined into a comprehensive Resource Alignment Diagnostic Tool. This tool allows for multiple methods of sorting the information, gives a visual representation of how the organization allocates money to each program, and how those programs rank relative to each other in order of highest priority (those programs most relevant to achieving results - Quartile 1) to lowest priority (those programs least relevant to achieving results - Quartile 4).

Results and Result Definitions

(a) BALANCED PATTERN OF GROWTH	(a) SAFE, HEALTHY, INCLUSIVE and SKILLED COMMUNITY	(a) VIBRANT, ACTIVE, WELCOMING and LIVABLE COMMUNITY	ECONOMIC PROSPERITY, STABILITY and GROWTH	EFFICIENT, CONNECTED TRANSPORTATION and INFRASTRUCTURE SYSTEMS	OUTSTANDING RECREATIONAL, CULTURAL and LEISURE OPPORTUNITIES	Good Governance
Encourages a compact and efficient pattern of growth that uses available land and resources effectively, while targeting infill and redevelopment in key areas (Principal BPG 1)	Employs a proactive, collaborative approach to enhance community safety through prevention, intervention, safety education and a visible, approachable presence (Principal SHIS 1)	Builds and establishes new neighborhoods that are diverse, offer a variety of housing types, promote community pride and character and are connected to the larger community (Principal LC 2)	Attracts and creates new businesses within targeted growth industries that expand its existing economic base and supports the creation and expansion of small, local entrepreneurs (Principal EC 1)	Builds a culture of multi- modal transportation awareness and utilization and provides a comprehensive, connected, accessible and safe network of trails, paths and sidewalks for pedestrians and cyclists (Principal TI 2)	Ensures access to quality education, technical training, information resources, literacy enhancement and life-long learning opportunities for all ages	Attracts, develops, equips, retains and values a high quality workforce dedicated to service excellence
Expands the variety of available housing options to meet the changing needs of the community and enhance its vibrancy (Principal BPG 3)	Ensures regulatory compliance in order to provide clean and well- maintained neighborhoods, to protect property, the environment and the lives of its residents and visitors	Conserves and protects its unique cultural and historic assets (Principal LC 6)	Encourages job creation and expansion, facilitating business growth through appropriate incentives, shared resources, community partnerships and "business-friendly", efficient processes (Principal EC 3)	Builds, improves and enhances a reliable utility infrastructure that delivers safe, clean water, controls storm water drainage and effectively manages sewer treatment (Principal TI 1)	Expands, enhances, preserves and protects its open space, greenways and natural areas for the enjoyment of future generations (Principal RC 1)	Maintains fiscal stability, organizational effectiveness, trust and transparency through accountability, efficiency, innovation, collaboration and best practices
Facilitates coordinated growth by fostering a cooperative and regional approach to planning and growth related issues (Principal BPG 2)	Ensures safe and secure public spaces, neighborhoods and business districts by offering protection from harm, enforcing the law and promptly and effectively responding to all emergencies and calls for service (Principal SHIS 1)	Develops vibrant activity centers and corridors, investing in their ongoing revitalization and ensuring activities and employment are equitably distributed (Principal LC 5)	Ensures the availability of an adequate supply of developable land for employment and housing growth (Principal EC 3)	Develops a network of complete streets to enable safe mobility for all users, including pedestrians, bicyclists, motorists and transit riders of all ages and abilities (Principal TI 2)	Offers a variety of recreational programs and venues that promote equity at the neighborhood level (Principal RC 2)	Protects, manages, optimizes and invests in its human, financial, physical and technology resources
Offers sufficient regulatory oversight to ensure that the community and its neighborhoods are safe, well-maintained and visually appealing	Fosters a caring and inclusive community that eliminates discrimination and supports opportunities for all abilities, ethnicities and income levels (Principal SHIS 4)	Encourages variety, visual interest and durability in the design of new development (Principal LC 1)	Increases connectivity by providing and enhancing its regional transportation connections and by continually maintaining, improving and expanding its transportation infrastructure (Principal EC 2)	Enhances regional roadway connectivity, expands its pubic transit options and synchronizes its transportation system with land use needs through effective and coordinated long-range planning (Principal TI 2)	Partners with the community to provide a diverse variety of affordable, accessible and secure community events and leisure activities that connect the community (Principal RC 2)	Provides and develops responsive, fair and accessible leadership, facilitates timely and effective two-way communication, encourages civic engagement and utilizes input from all stakeholders
Promotes a balanced and diverse mix of land uses throughout the City that ensures flexibility and balances capacity with demand (Principal BPG 3)	Minimizes and reduces hazard risk and enhances community resiliency by being prepared for emergencies, raising safety awareness and ensuring active community involvement in providing for its own safety and security (Principal SHIS 2)	Maintains the character and livability of existing neighborhoods, retaining their unique qualities and supporting continued investment in the upkeep and preservation of their infrastructure and amenities (Principal LC 3)	Markets its attractiveness as a designation point for tourists and regional visitors	Manages and maintains a transportation system that eases traffic congestion, improves traffic flow and enhances connectivity	Promotes tourism activities, programs and amenities that highlight its unique history and culture (Principal RC 3)	Provides assurance of regulatory, policy and safety compliance to minimize and mitigate risk
Promotes well- regulated, strategically planned, future-focused and sustainable development	Provides for a safe transportation network that is well-maintained, accessible, enhances traffic flow and offers safe mobility to motorists, cyclists and pedestrians alike	Preserves, protects and safeguards its natural, wildlife and environmental resources, properly regulating its regional air and water quality to support a safe and healthy community (Principal LC 6)	Partners with the community to attract retail and commercial development and redevelopment that sustains a vibrant downtown and strengthens its role as a regional economic hub (Principal EC 2)	Proactively designs, constructs, improves and invests a transportation infrastructure that is well-planned, well- maintained and efficiently managed (Principal TI 1)	Provides a safe, accessible and interconnected network of well-maintained parks and trails that are aligned with its current and future needs and that promotes an active and healthy lifestyle (Principal RC 1)	Supports decision- making with timely and accurate short- term and long-range analysis that enhances continuity, vision and planning
Provides, maintains and invests in well-planned and well-designed public infrastructure networks that sustain current service levels and accommodate the long-range growth needs of the community	Provides for the health and social well-being of the community by increasing accessibility to services, expanding opportunities for active living, encouraging personal wellness and actively working to improve the welfare of those in need (Principal SHIS 3)	Projects a positive community image by maintaining and enforcing standards that address property upkeep and appearance as well as ensuring its entrance corridors and gateways are visually appealing and welcoming (Principal LC 1)	Sustains a safe and attractive place to live and work, offering access to quality housing, health care, educational opportunities and community amenities that attract and retain quality employers and a skilled workforce (Principal EC 1, 2)	Supports an integrated intermodal network (truck, air and rail) that preserves, enhances and regionally connects a freight network that is efficient, cost effective and compatible (Principal TI 3)	Recognizes and strengthens the role of arts and culture in contributing to its sense of community by offering venues and events that enrich and engage the community (Principal RC 3)	
	Supports a network of strong, successful schools and places a strong focus on opportunities for life-long learning and workforce skills training and enhancement (Principal SHIS 5)	Sustains and promotes a vibrant Downtown Center that promotes its ongoing role as a regional destination point and increases its synergy with other community centers of activity (Principal LC 4)				

Outcomes of Priority Based Budgeting

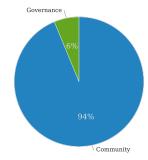

Community and Governance Spending

Priority Based Budgeting at the highest level quantifies the portion of spending towards our external and internal services.

The policy goals of Priority Based Budgeting are differentiated by two kinds of municipal activities: Community Programs and Governance Programs. Community Programs serve the public, while Governance Programs internally serve other departments. A breakdown of spending towards Community and Governance activities is shown below.

The top-center pie chart shows the proportion of funds spent towards Community programs compared to the portion spent internally to Governance programs. This chart effectively shows the rate of overhead of the government organization. The two charts below show the portion of spending by department split across Community and Governance programs.

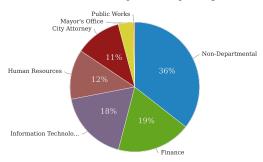

Community Department Spending

Governance Department Spending

Spending Towards Results

Combining program cost information with scoring allows us to look at what portion of our budget is directed to each at each result area. Remember, each Community program is scored against all Community Results (as each Governance program is scored against all Governance Results), so it is likely one program will achieve multiple results.

Spending Towards Community Results

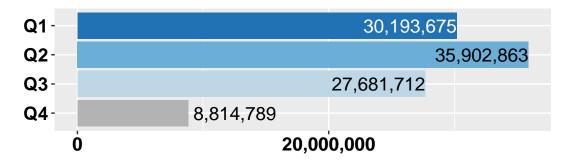

Spending Towards Governance Results

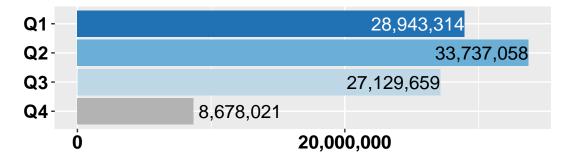

Overall Alignment and Costs

The organization puts the majority of resources towards programs that contribute to our Results and strategic plan. The charts below show the entire organization budget and then the resource alignment within Community and Governance Programs. Department level breakdown of the programs, their costs, and alignment with results is shown in the following section.

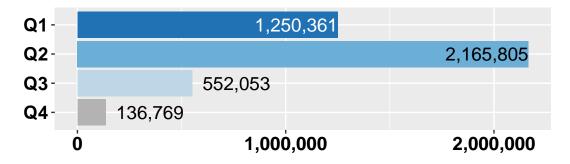

Entire Organization Resource Alignment

Resource Alignment within Community Results

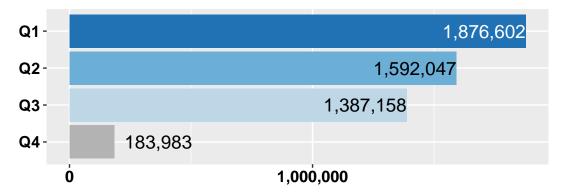

Resource Alignment within Governance Results

Department Program Alignment and Costs
